

Write

No working out
required.

Measure

Use a ruler or a
protractor.

Show

Clearly work out in
your own way.

Evaluate

Write the value of
the number.

Work out

You must show your
working out.

Estimate

Round each number
first, then calculate.

Explain

Use sentences to
describe your point.

Draw

Use a pencil and
ruler.

Solve

Find a solution to an
unknown variable.

Simplify

Collect like terms.

Construct

Draw accurately using
mathematical equipment.

Enlarge

Multiply the all sides
by the scale factor.

Translate

Move the shape using
the vector provided.

Rotate

Turn the shape around
the given point and angle.
